Solutions for each space

The sets of the S100 series provide a product with clean and sophisticated lines with multiple **functionalities** to respond to the needs of each space (headboard, room service and bathroom).

The personalized style is complemented with ease of installation and configuration of the devices

Simplification of maintenance.

Resolution of incidents without the intervention of specialized staff.

Increased profitability by reducing the blocked room time due to breakdowns.

Possibility of working with the most extended building automation standards such as KNX, BACnet or SiSLink.

The unification of design and functionality

AQUA Series. The new smart showers

The bathroom becomes part of the domotic system of the room, providing comfort to the guest and, at the same time, **optimizing and reducing the consumption** of water and energy.

The union of an **elegant style** with an **intuitive functionality**, which guarantees a unique sensorial experience for the most demanding guests.
